BULK MATERIAL PICKUP

Pickup is available anytime Sky is open, no appointment necessary.

We load full and 1/2 yard increments only. Need less? Check our bagged material price list!

Open bed truck or trailer required. Please know your vehicle's weight limitations beforehand, as Sky Nursery is not responsible for damage to your vehicle during/after the loading process. Keep in mind, city law requires open loads to be covered. **Please pay at registers in advance for bulk pickup.** You will get a pickup slip with your receipt attached. Do not separate or lose them, both are *required* to pick up your order.

BULK MATERIAL DELIVERY

Deliveries are scheduled Tuesday - Saturday, excluding holidays.

At this time, we have a 10 yard minimum. You can order up to 3 different materials to meet the minimum (subject to approval).

Additional delivery fees apply to some neighborhoods. Speak to an associate to discuss special access restrictions or additional delivery fees that may apply to you.

HOW MANY YARDS DO I NEED?

Let us do the math for you! Use our **bulk calculator at skynursery.com**

If you don't mind a little math, you'll need to know the square footage of your space and the depth to which you want it to be covered. Then, use our handy chart (to the right) to determine how many yards you will need.

Approximate Coverage
for 1 yd Based on Depth

Length in feet
x
Width in feet

Covering a rectangle:

For example: 15' long x 10' wide = 150 sq ft; and you want a depth of 3"
Then divide 150 sq ft by 100 (coverage at 3" depth)
Amount needed: 1.5 yds

Radius² in feet
x
3.14 (pi)

Radius is half
the diameter

Covering a circle:

For example: Circle diameter is 22' so 11' x 11' x 3.14 = 379.94 sq ft
and you want a depth of 4".
Then divide 379.94 by 75 (coverage at 4" depth)
Amount needed: about 5 yds
