**DECIDUOUS MAGNOLIAS**

**BLACK TULIP (M. x soulangeana).** Height 15-20 feet, width 6-10 feet. Likes full sun. Rounded tulip-shaped flowers—very deep burgundy red. Blooms late April to May.

**BURGUNDY STAR (hybrid).** Height 7-12 feet; spread 3-5 feet. Unique upright columnar form. Large starry flowers are deep winey pink, fragrant, and about 5” across.

**ELIZABETH (hybrid).** Height 18-20 feet—width 12-15 feet. Upright pyramidal shape. Sun or part shade. Elegant buds open to large, fragrant, primrose-yellow blooms with red stamens in spring.

**FELIX JURY (hybrid).** Height 20-40 feet, width 10-15 feet. Upright pyramidal shape. Large (up to 12”) hot pink flowers with wonderful fragrance.

**GALAXY (hybrid).** Height 12-20 feet, width 6-8 feet. Pyramidal shape. Likes full sun. Slightly fragrant "saucer" flowers; buds are dark red-purple, opening to rose-purple inside, lighter outside.

**GENIE DWARF (hybrid).** Height 10-15 feet, width 6-8 feet. Fragrant burgundy-red flowers. Dwarf form of 'Black Tulip'—large dark blooms on a small tree.

**HONEY TULIP (hybrid).** Height 10-15 feet; spread 4-6 feet; upright and compact. Large goblet-shaped flowers are honey-yellow.

**LEONARD MESSEL (M. x loebneri).** Height 15-25 feet, width 6-10 feet. Rounded multi-trunk tree. Deep pink buds open to star-shaped lilac pink flowers. Protect from wind.

**PAUL COOK (M. sprengeri).** Height 15-25 feet. Gorgeous large (10”) flowers are saucer-shaped, lavender-pink outside and white inside, appearing before the leaves in April.

**ROSE MARIE (hybrid).** Height 14-18 feet, with 10-12 feet. Compact upright tree. Fragrant pink flowers in April.

**SAUCER (M. x soulangeana).** Height 20-25 feet, width 20-25 feet. Broadly rounded tree. Abundant pink flowers with white centers before the leaves appear. Will sometimes re-flower in late spring.

**SUSAN (hybrid).** Height 6-8’, width 4-7 feet. Compact rounded form. Prolific reddish violet flowers in spring.

STAR MAGNOLIAS (DECIDUOUS)

ROYAL STAR (M. stellata). Height 10-20 feet, width 6-8 feet. Large, fragrant, double white flowers. Blooms later than regular star magnolia—good where late frosts can be a problem.

EVERGREEN MAGNOLIAS

BABY GRAND (M. grandiflora). Dwarf with compact narrow form. Height 8-10 feet, width 6-8’ feet. Good glossy foliage. Extremely fragrant white flowers in early summer.

LITTLE GEM (M. grandiflora). Dwarf with compact narrow form. Height 10-15 feet, width 6-8 feet. Dark green foliage; chocolate on underside. Fragrant white flowers; often re-blooms in late summer.

TEDDY BEAR (M. grandiflora). Height 10-15 feet; spread 6-8 feet. Compact upright shape. Smaller foliage and flowers than most evergreen magnolias. 6-8” white flowers in mid summer.
